University College London

John Norton  
University of Pittsburgh

Zuzana Parusniková  
Czech Academy of Sciences

Stephen Turner  
University of South Florida

Jiji Zhang  
Chinese University of Hong  
Kong

Karl Popper (1902-1994) is regarded as one of the most influential philosophers of science of the twentieth century. However, Popper's legacy on contemporary philosophy of science is surprisingly thin. This conference aims to revisit and explore Popper's legacy for twenty-first century philosophy of science

- Featuring 18 talks by leading Popper scholars and philosophers of science from 12 countries across the globe

## Contributed Speakers

Nimrod Bar-Am (Sapir College, Israel)

Brian Boyd (University of Auckland, New Zealand)

Francesco Di Iorio (Nankai University, China)
